

5 REASONS WHY EPDs ARE VITAL FOR THE BUILDING SECTOR

BUILDING & CONSTRUCTION

The building and construction sector is an important lever for achieving climate targets. Environmental Product Declarations (EPDs) could propel progress towards limiting the sector's carbon emissions.

What is an EPD? A 'product pass' that shows the environmental impact of a product over its life cycle, independently verified in accordance with international standards (ISO 14025, EN 15804).

EPDs for GROHE products can easily be found here
