# DISCOVER OUR MASTERPIECE OF TECHNOLOGY GROHE RAPIDO SMARTBOX

One concealed rough-in can be combined with single-lever mixers, thermostats or GROHE SmartControl - for even more individuality and space in the shower.

## HIDDEN CHAMPION: GROHE RAPIDO SMARTBOX

Few things count more in the installation business than efficiency and convenience. That makes the GROHE Rapido SmartBox system an obvious choice. One box offers unlimited options.

**Three outlets**  
for a wider range  
of shower options

**One rough-in**  
runs up to three shower functions with just  
one trim plate for a better shower experience

**Efficient installation**  
thanks to bottom inlets

**Subsequently adjustable by  
up to 6 degrees**  
for perfect alignment with tiles

**Fits narrow and brick walls**  
as only 75 mm minimum  
installation depth required

**Perfect for retrofit**  
thanks to optional service  
stops for all thermostats and  
SmartControl mixers

**Easy installation**  
with job side mounting,  
no bench vice needed

## ONE PRODUCT, MULTIPLE OPTIONS FOR YOUR CUSTOMER

Sleek design, innovative technology and versatile usage options – the GROHE Rapido SmartBox is an all-rounder. Creating a beautiful area for bathing and showering can be a challenge especially as available space is often very limited. However the GROHE Rapido SmartBox system offers the luxury of extra space thanks to the super slim trimsets with just an outreach of 43mm. More flexibility for installer and planner – even for retrofitting.
