

GROHE SHOWER SYSTEMS TO ENERGIZE YOUR LIFE

New energy, new power, new freshness. Taking a shower vitalizes in the morning, refreshes after an exhausting workout and relaxes in the evening. Showering is a central element when it comes to personal hygiene and the shower is thus also a central element of every bathroom. With a GROHE shower system, consumers can expect high-quality products and pure showering comfort at any budget – no need to compromise. The curated systems consist of selected head and hand showers, rounded out with innovative thermostats to provide everyone with new energy for our daily life. And the shower systems offer even more advantages: Thanks to smart technologies, they support a sustainable lifestyle and enable consumers to combine showering pleasure with conscious water consumption.

69%

agree that taking a shower can restore their energy reserves¹

64%

take a shower to start the day fresh¹

¹ Based on representative Shower Survey by explorare and GROHE, June 2020, sample of 3,500 respondents in Germany, UK, France, the Netherlands, Denmark, Russia, Egypt.

COMFORT & JOY GROHE TEMPESTA 250 SHOWER SYSTEM

- Sustainable water enjoyment: A 250 mm **head shower** – available in a round or square design – ensures a full face Rain spray and, enables the consumers to do their bit for the planet thanks to GROHE EcoJoy. The technology limits the flow of water to a sustainable 9.5 liters per minute without compromising performance.
- Versatile showering pleasure: The GROHE Tempesta Cosmopolitan 100 **hand shower** offers two sprays – soothing or powerful for rinsing hair.
- Reliable heart of the shower system: The exposed **thermostat** with GROHE TurboStat technology provides a constant temperature for safety and comfort throughout the shower.
